Brussels, 7 July 1978.

## PROPOSAL FOR A SUPPLEMENTARY COUNCIL ESTIMATE

of young male bovine animals weighing 300 kilograms or  
less intended for fattening for the period to 31 December 1978

---

(submitted to the Council by the Commission)

COM(78) 325 final.

Proposal for a supplementary Council estimate

of young male bovine animals weighing 300 kilograms  
or less intended for fattening for the period  
31 December 1978

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,  
Having regard to Council Regulation (EEC) No 805/68 of 27 June 1968 on the  
common organization of the market in beef and veal<sup>1</sup>, as last amended by  
Regulation (EEC) No 425/77<sup>2</sup>, and in particular the second subparagraph of  
Article 13(2) thereof,

Having regard to the proposal from the Commission,

HAS ADOPTED THIS SUPPLEMENTARY ESTIMATE:

Introduction

On 13 December 1977 the Council adopted an estimate of young male bovine  
animals weighing 300 kilograms or less intended for fattening during the  
period 1 January to 31 December 1978<sup>3</sup>. In this estimate the import require-  
ment for 1978 was set at 200 000 head.

This supplementary estimate appears necessary in the light of the information  
available to the Commission and of the forecasts which can currently be made.

---

<sup>1</sup> OJ No L 148, 28. 6.1968, p. 24

<sup>2</sup> OJ No L 61, 5. 3.1977, p. 1

<sup>3</sup> OJ No L 330, 23.12.1977, p. 28

1. Imports from third countries since the beginning of 1978.

The number of young male bovine animals intended for fattening for which import licences were issued in the first two quarters of 1978 is 130 000 head. On the basis of the Council estimate of 13 December 1977 the number of young bovine animals that can be imported in the last two quarters of 1978 is 70 000 head.

2. Background information for the second half of 1978.

The figures available show that the number of cows is less than was indicated in the provisional figures on which the estimate of 13 December 1977 was based (30 923 000 head instead of 31 031 000 in December 1977). It can therefore be estimated that for the present year more young bovine animals intended for fattening are required than was originally thought.

3. Conclusion.

On the basis of the above information it appears that the Community requirements for 1978 of young male bovine animals intended for fattening will be higher than was stated in the estimate of 13 December 1977. The additional import requirement of these animals can be estimated at 50 000 head for the second half of 1978.

YEAR .....

5.0.1 PLURIANNUAL PATTERN OF EXPENDITURE

5.1.1 PLURIANNUAL PATTERN OF RECEIPTS

3 MUA

Estimate limited to 1978

### 5.2 METHOD OF CALCULATION

38 000 head à 0.150 t = 5 700 t x 596.33 UA/t = 3.4 MUA

12 000 head à 0.250 t = 3 000 t x 533.56 UA/t = 1.6 MUA

50 000

Reduction of 3.4 x 50 % = 1.7

1.6 x 70 % = 1.1

2.8 MUA = 3 MUA
